

Our Zoom call to our partner school in Kagio, Kenya.

How amazing to sing a Swahili song with them- Jambo Bwana or Jambo Kenya.

We were able to Zoom our friends in Kagio on 25th May 2021 which was wonderful. We talked about life here and there during the pandemic. Schools in Kenya were closed for even longer than in England. Some children there had internet learning or televisions but some did not. They all still have to wear face coverings at school and have much longer school days than we do. Very few Kenyans have had the vaccine yet though teachers have been able to. There is no testing and tracing. They still have curfews from 10.00 every night. We learned lots from the British Council pack 'Learning from a pandemic'. It is even harder for the Kenyans than it has been for our well being.
